## About Me

Full Stack Web Developer with over three years of experience, seeking new challenges in a Mid-Level position.

## Previous Experiences

### Insights Machine – Mid-Level II Web Developer

May, 2022 – Currently / Rio de Janeiro, Brasil.

Full Stack Web Developer with more than three years of experience, leading various web development projects across the company:

- Implemented DevOps culture (Azure Repos, Boards, Pipelines – CI/CD), gitflow, and conducted approval of Pull Requests and Code Reviews for the team in all projects.
- Integrated and developed various Web Services and RESTful APIs, including those with OAuth2 protocol, and webhooks for payment gateway integrations (MercadoPago and PagSeguro).
- Developed and maintained cloud services on Azure (Web Apps, Active Directory, Blob Storage, Pipelines, Functions).
- Led the entire development process of the company's core system, including requirement gathering, database modeling, API development, AJAX API communication, and data rendering on the front-end, covering diverse areas such as finance, HR, payroll, time tracking, CRM, ticketing, file uploads, spreadsheet and PDF generation, and contract management.
- Created several websites, always adhering to best practices in SEO, accessibility, responsiveness, and optimization, aiming for top-notch Google Lighthouse scores.

**Front-end:** HTML, CSS, JavaScript, jQuery, Bootstrap, React, SEO, AJAX

**Back-end:** PHP, MVC, SQL SERVER, PHPUnit

**Agile Methodologies:** Kanban, Scrum

**Other:** Git, Figma, Azure, DevOps (Azure Repos, Boards, Pipelines), RESTful API, Clean Code

### Insights Machine – Mid-Level Web Developer

Dec, 2021 – May, 2022 / Rio de Janeiro, Brasil.

Web Development Lead, overseeing various projects:

- Ticketing Module: Implemented a comprehensive ticketing system with email notifications, report generation, and API communication.
- CRM: Developed a system with lead management, email campaigns, and excel exports.
- HR and Payroll: Created modules for employee management, payroll processing, health insurance administration, automated payslips, and contract generation.
- Azure Blob Storage Integration: Implemented a seamless integration with Azure Blob Storage for efficient file management.
- Access Control: Developed a role-based access control system, granting users access to specific routes and functionalities.
